ADAPTATION OF THEORETICAL AND PRACTICAL CONTENTS

All theoretical-practical contents are maintained. In the case of the group in English, the practical session that remained to be taught has been virtualized, providing students with a video about it. To carry out the corresponding practice report, a simulation of results has been carried out.

ADAPTATION OF THE TEACHING METHODOLOGY, INCLUDING TRAINING ACTIVITIES AND TOOLS FOR THE DEVELOPMENT OF NON-PRESENTIAL TEACHING

General clarifications on teaching methodology:

The course is virtualized on the Moodle platform of the University of Córdoba. The general and specific clarifications on the methodological adaptation to the distance modality will be published in the virtual classroom of the University of Córdoba.

ADDENDUM TO THE COURSE DESCRIPTION

Non-face-to-face activities	
Large group	Lectures and oral presentation of the students by videoconference
Medium group	Resolution of exercises and problems by videoconference, with delivery of the works uploading them to moodle or sending by email to the teacher in the established time.
Small group	
Tutoring	Email, Forum in Moodle and videoconference

ADAPTATION OF EVALUATION SYSTEMS

The assessment methods and their percentage have not changed compared to the original teaching guide. The only change is the absence of a minimum grade in each of the assessment instruments.

The grade of "Not presented" will correspond to the student who has not taken part in a number of evaluable activities whose weights on the final grade amount to more than 50% (Art. 80.4 of the Regulations for the Academic Regime of Degree Studies).

For the student who has participated in assessment activities other than the final exam whose accumulated weight on the final grade exceeds 50% and has not attended the final exam of the subject, the teacher will record "Not presented" in the provisional publication of the ratings.

If during the review process, the student does not express his disagreement with that grade, it will be consolidated into the final grade for the course. Otherwise, you must notify the teacher and the final grade would be the weighted sum of the scores achieved in all the assessment methods to which you have attended according to the criteria established in this addendum.

RESOURCES AND INFRASTRUCTURES
